1.0

# Introduction to Kellpo Packaging

At Kellpo, we specialize in developing and producing plastic packaging for the food industry.

For 30 years, we have combined technical precision with North Jutland integrity to deliver packaging that both protects the contents and strengthens sales.

Our packaging is made from recyclable plastic and designed with a focus on functionality, quality, and aesthetics.

We advise our customers throughout the entire process, from design and mold development to testing and production, ensuring that every solution fits perfectly with the product and the brand behind it. In this catalogue, you will find a complete overview of our standard packaging and the possibilities for customized solutions.

## KELLPO IN BRIEF

- Founded in Thy in 1995
- In-house toolmaking and service department
- Specialists in food-grade plastics
- Focus on recyclability and efficient production
- Collaborating with customers across Europe

### 1,2L Rectangular Container

**Material:** Food-grade PP  
**Container volume:** 1200 ml  
**Tamper-evident:** Yes

**Dimensions (LxWxH):** 192 x 129 x 72 mm

**IML:** Not supported      **Product no.:** 012000  
**Matching lid:** 12002      **Type:** M

Rectangular container with tamper-evident closure and a tight-fitting lid. A versatile solution for storing dressings, sauces, and delicatessen products. The compact size and secure closure make it suitable for both retail and food service applications.

Rectangular 1200 ml

H

### 1,1L Rectangular Container (IML)

**Material:** Food-grade PP  
**Container volume:** 1100 ml  
**Tamper-evident:** Yes

**Dimensions (LxWxH):** 194 x 124,5 x 70 mm

**IML:** Supported      **Product no.:** RT1100-197  
**Matching lid:** LRT-197      **Type:** H

Rectangular container with IML support and tamper-evident closure. Designed for ice cream production and ideal for storing dressings, sauces, and delicatessen products. The tight-fitting lid ensures optimal freshness and presentation for both retail and industrial use.

Rectangular IML 1100 ml

H

### 950 ml Rectangular Container (IML)

**Material:** Food-grade PP  
**Container volume:** 950 ml  
**Tamper-evident:** Yes

**Dimensions (LxWxH):** 197 x 124,5 x 66,5 mm

**IML:** Supported      **Product no.:** RT950-197  
**Matching lid:** LRT-197      **Type:** H

Rectangular container with IML support and tamper-evident closure. Ideal for ice cream production and suitable for storing dressings, sauces, and delicatessen products. The tight-fitting lid helps maintain freshness and quality, making it well-suited for both retail and industrial applications.

Rectangular IML 950 ml

H

### 1100 ml TrapezShapeet Container (IML)

**Material:** Food-grade PP  
**Container volume:** 1100 ml  
**Tamper-evident:** Yes

**Dimensions (LxWxH):** 186 x 124 x 77 mm

**IML:** Supported      **Product no.:** RT1100-186  
**Matching lid:** LRT-186      **Type:** H

Trapezoidal container with tamper-evident closure and IML support. Ideal for dry goods, sauces, and delicatessen products. The distinctive shape offers a modern appearance while ensuring easy stacking and efficient use of space.

Trapez IML 1100 ml

H

### 650 ml TrapezShapeet Container (IML)

**Material:** Food-grade PP  
**Container volume:** 650 ml  
**Tamper-evident:** Yes

**Dimensions (LxWxH):** 186 x 124 mm x 47 mm

**IML:** Supported      **Shape:** Trapez  
**Matching lid:** LRT-186      **Type:** H

Trapezoidal container with tamper-evident closure and IML support. Ideal for dry goods, sauces, and delicatessen products. The low height and modern design make the container easy to stack and visually appealing in presentation.

Trapez IML 650 ml

### 5,9L Round Bucket with Handle

**Material:** Food-grade PP  
**Container volume:** 5900 ml  
**Tamper-evident:** Yes

**Diameter:** 228 mm      **Shape:** Round

**IML:** Not supported      **Product no.:** CT5800H-228  
**Matching lid:** Standard LCT-228-2 & Foil LCF-228-2      **Type:** M

Round plastic bucket with handle and secure lid. Approved for food contact and ideal for storing sauces, dressings, vegetables, and fish. The robust construction and tight closure make the bucket suitable for both industrial and catering applications.

Ø228 Bucket with Handle 5900 ml

### 3,7L Round Bucket with Handle

**Material:** Food-grade PP  
**Container volume:** 3700 ml  
**Tamper-evident:** Yes

**Diameter:** 228 mm      **Shape:** Round

**IML:** Not supported      **Product no.:** CT3500H-228  
**Matching lid:** Standard LCT-228-2 & Foil LCF-228-2      **Type:** M

Round plastic bucket with a secure lid. Ideal for ice cream production and for safe storage of dressings, sauces, and delicatessen products. The durable design ensures high stability, making it well-suited for transport and storage in large-scale production.

Ø225 Bucket with Handle 3700 ml

### 1,2L Round Bucket (IML)

**Material:** Food-grade PP (White)  
**Container volume:** 1200 ml  
**Tamper-evident:** Yes

**Diameter:** 132 mm    **Height:** 130,3 mm      **Shape:** Round

**IML:** Supported      **Product no.:** CT1200-133  
**Matching lid:** LCT-132      **Type:** H

The classic 1.2 L bucket – now optimized with over 25% less plastic. It combines proven functionality with more sustainable material efficiency. Ideal for dairy products and delicatessen goods, where design, food safety, and environmental considerations go hand in hand.

Ø132 Bucket IML 1200 ml

### 1,5L Round Container

**Material:** Food-grade PP  
**Container volume:** 1500 ml  
**Tamper-evident:** Yes

**Diameter:** 132 mm **Height:** 160 mm **Shape:** Round

**IML:** Not supported **Product no.:** 004515  
**Matching lid:** 4501 **Type:** L

Round container with tamper-evident closure and secure lid. Ideal for storing dressings, sauces, and delicatessen products, and often used for fish and shrimp. The tall form provides excellent stability and presentation, making it suitable for both retail and food service use.

Ø132 1500 ml

### 800 ml Round Container

**Material:** Food-grade PP  
**Container volume:** 800 ml  
**Tamper-evident:** Yes

**Diameter:** 132 mm **Height:** 89 mm **Shape:** Round

**IML:** Not supported **Product no.:** 004508  
**Matching lid:** 4501 **Type:** L

Round container with tamper-evident closure and secure lid. Ideal for storing dressings, sauces, and delicatessen products, and commonly used for fish and shrimp. The compact size makes it easy to handle and well-suited for both retail and catering applications.

Ø132 800 ml

### 700 ml Round Container

**Material:** Food-grade PP  
**Container volume:** 700 ml  
**Tamper-evident:** Yes

**Diameter:** 132 mm **Height:** 80 mm **Shape:** Round

**IML:** Not supported **Product no.:** 004507  
**Matching lid:** 4501 **Type:** L

Round container with tamper-evident closure and secure lid. Ideal for storing dressings, sauces, and delicatessen products, and often used for fish and shrimp. The low height makes it easy to stack and practical for both retail and large-scale kitchens.

Ø132 700 ml

M

**660 ml Round Container (IML)**

**Material:** Food-grade PP  
**Container volume:** 660 ml  
**Tamper-evident:** Yes

**Diameter:** 97 mm      **Shape:** Round

**IML:** Supported      **Product no.:** CT660  
**Matching lid:** LCT-97      **Type:** M

Round container with tamper-evident closure and IML support. Ideal for storing dressings, sauces, biscuits, and delicatessen products. The compact size and secure seal make it suitable for both retail and catering, where functionality and presentation go hand in hand.

Ø97 IML 660 ml

M

**375 ml Round Container (IML)**

**IML:** Supported   **Product no.:** 7200  
**Matching lid:** Foil   **Type:** M

Round container with combined IML and foil sealing. Ideal for dairy, sauces, and delicatessen products. The compact size and option for decorative labeling make it well-suited for both retail and industrial use.

Ø95 IML 250 ml

## EVOH-barrier option

These three innovative containers combine the classic functionality of the traditional tin can with the benefits of modern lightweight plastic. The integrated EVOH barrier effectively protects against oxygen and aroma, extending shelf life and preserving taste and freshness.

The containers are designed to be easy to open, resealable, and ideal for soups, sauces, vegetables, fish, and meat. They can also be supplied as standard packaging without barrier and foil sealing.

### 475 ml Round Container (IML + Foil, EVOH-barrier)

**Material:** Food-grade PP  
**Container volume:** 475 ml  
**Tamper-evident:** No

**Diameter:** 108 mm **Height:** 68 mm **Shape:** Round

**IML:** Supported **Product no.:** CF108-475  
**Barrier:** EVOH **Matching lid:** LCF-110  
**Type:** H

**Diameter:** 103 mm **Height:** 39,6 mm **Shape:** Round

**IML:** Not supported **Product no.:** 002250  
**Matching lid:** 2102 (PP) / 2103 (PS) **Type:** H

Round, transparent serving bowl made of plastic. Ideal for catering, serving, and takeaway solutions in the restaurant industry. The compact size makes it perfect for smaller portions, desserts, or sides, where presentation and visibility are key.

Ø103 225 ml

H

### 150 ml Round Container (Transparent)

**Material:** Food-grade PS  
**Container volume:** 150 ml  
**Tamper-evident:** No

**Diameter:** 103 mm **Height:** 23,4 mm **Shape:** Round

**IML:** Not supported **Product no.:** 002050  
**Matching lid:** 2102 (PP) / 2103 (PS) **Type:** H

Round, transparent serving bowl made of plastic. Ideal for catering, serving, and takeaway solutions in the restaurant industry. The low height makes it well suited for small portions, sides, or dips, where presentation and transparency are essential.

Ø103 150 ml

H

### 40 ml Round Container (Transparent)

**Material:** Food-grade PS  
**Container volume:** 40 ml  
**Tamper-evident:** No

**Diameter:** 51 mm **Height:** 26,8 mm **Shape:** Round

**IML:** Not supported **Product no.:** 001040  
**Matching lid:** 1849 **Type:** H

Small, round, and transparent serving bowl made of plastic. Perfect for sauces, dressings, or other small servings. The compact size and clear construction make it ideal for takeaway, catering, and serving where presentation and functionality go hand in hand.

Ø51 40 ml

# Experience the Difference.

NEW AND OPTIMIZED DESIGN – OVER 25% LESS PLASTIC

Our new design is just the first step in a complete series that we plan to expand further over time. We are currently developing the following sizes:

For larger production volumes, we can tailor both the design, dimensions, and container volume precisely to your requirements.

# Feel the Savings.

At Kellpo, we develop packaging solutions that combine sustainability with efficient production. With our new packaging design, we've reduced plastic consumption by more than 25%.

This means we're not only reducing environmental impact – we're also creating a noticeable difference to your bottom line:

Designed in monomaterial for full recyclability

Green environmental rating ensures the lowest fees

Lower packaging weight reduces CO<sub>2</sub> emissions

Fits existing filling lines without adjustment

**LESS PLASTIC.  
SAME QUALITY.**
